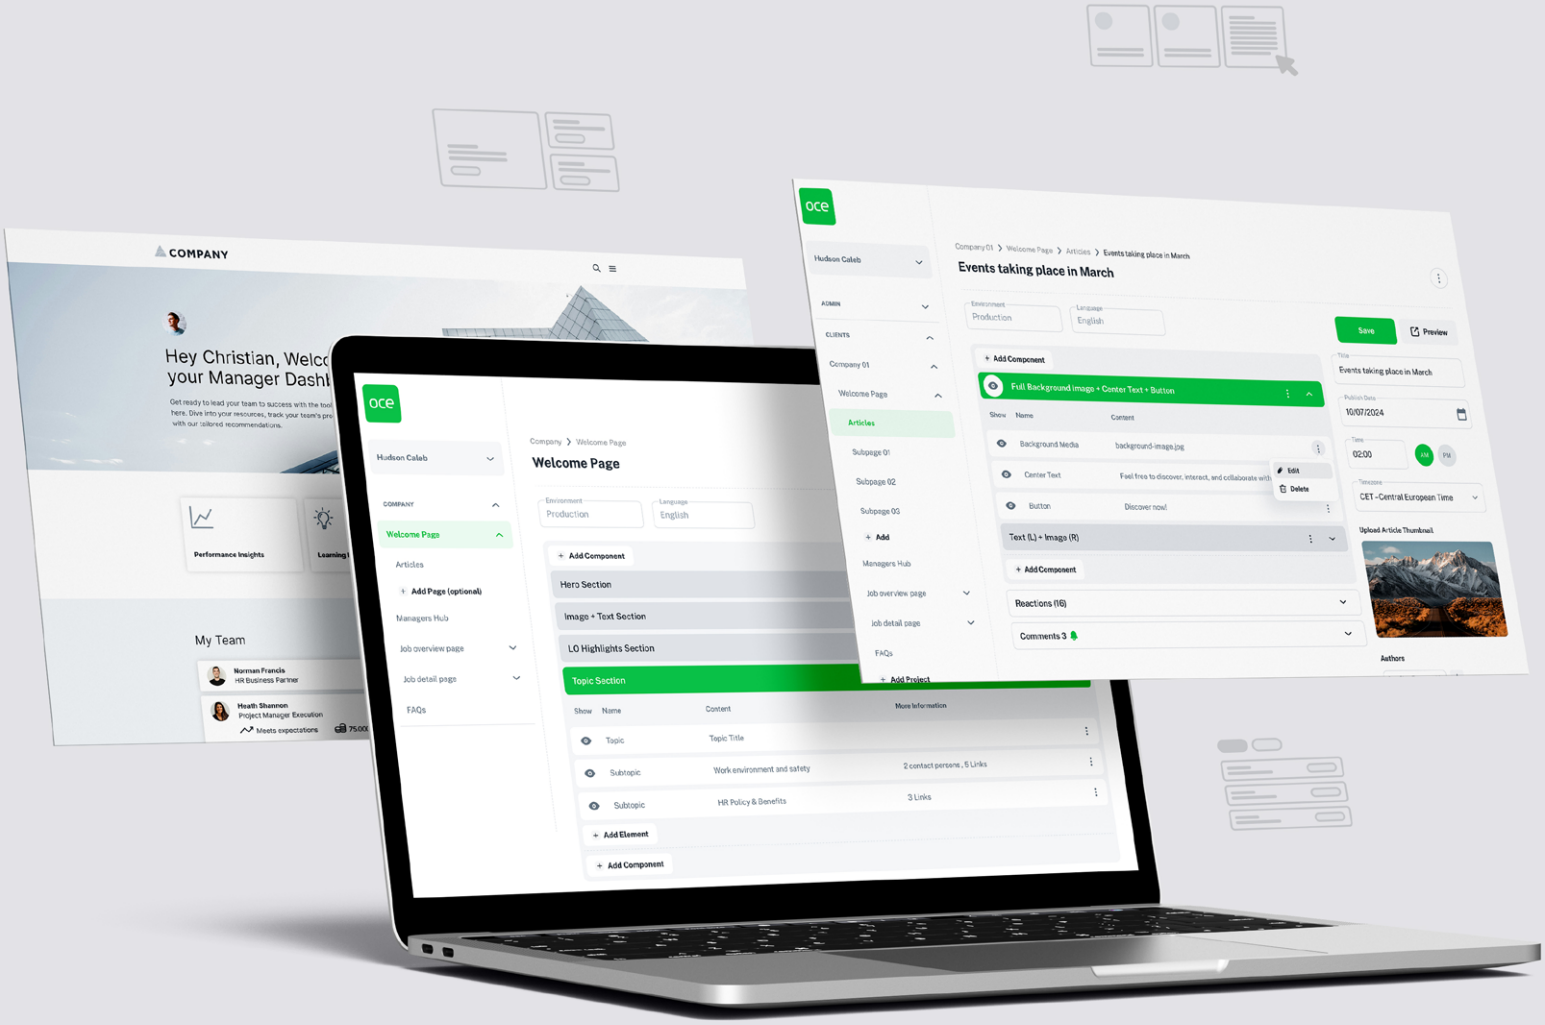
Octily Content Editor

The Missing Piece in Your HR Strategy



More Flexibility.
More Possibilities.
More Engagement.

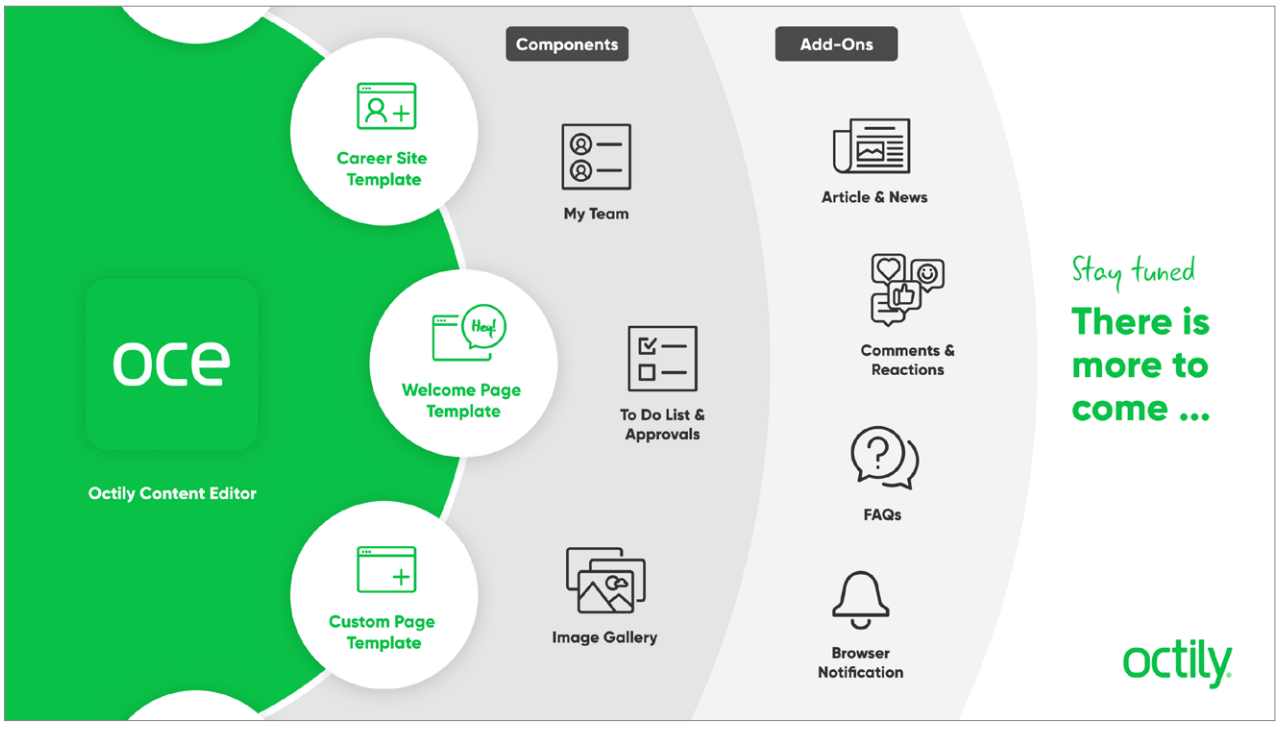
The **Octily Content Editor (OCE)** is your ultimate companion to bridge the gap between HR platforms like Cornerstone OnDemand, their customizations, your communications, and individual content.

With the OCE, HR and L&D teams like yours gain full control to manage pages, amplify communication, and deliver an outstanding employee experience – all while keeping everything beautifully on-brand and effortless to maintain.

Originally born from a simple idea – giving our clients the speed and independence to handle most updates themselves without project management bottlenecks – the OCE has evolved into so much more. Today, it's a powerful platform in its own right, continuously expanding with new features that support your and our biggest goal: driving employee adoption, engagement, and experience.

Whether you're updating your Career Site, Welcome Page, Onboarding Experience, Learner Home, or Manager Hub, the OCE puts you in the driver's seat, making it easy to keep your Cornerstone experience fresh, dynamic, and aligned with your culture.

The OCE seamlessly integrates with **Cornerstone OnDemand's CSX, Saba Cloud, and EdCast**, making it the go-to choice for organizations looking for more flexibility and control – with best-practice templates, reusable components, and handy add-ons to make your customizations even better.



Why OCE?

OCE isn't just an editor. It's your **content powerhouse** for Cornerstone. Whether you need to build custom pages, set up templates, or expand functionality with add-ons, OCE makes it simple.

No Coding Skills Required
Update and manage content with a user-friendly interface.

Always On-Brand
