**Octily Content Editor**

The Missing Piece in Your HR Strategy

More Flexibility.
More Possibilities.
More Engagement.

The **Octily Content Editor (OCE)** is your ultimate companion to bridge the gap between HR platforms like Cornerstone OnDemand, their customizations, your communications, and individual content.
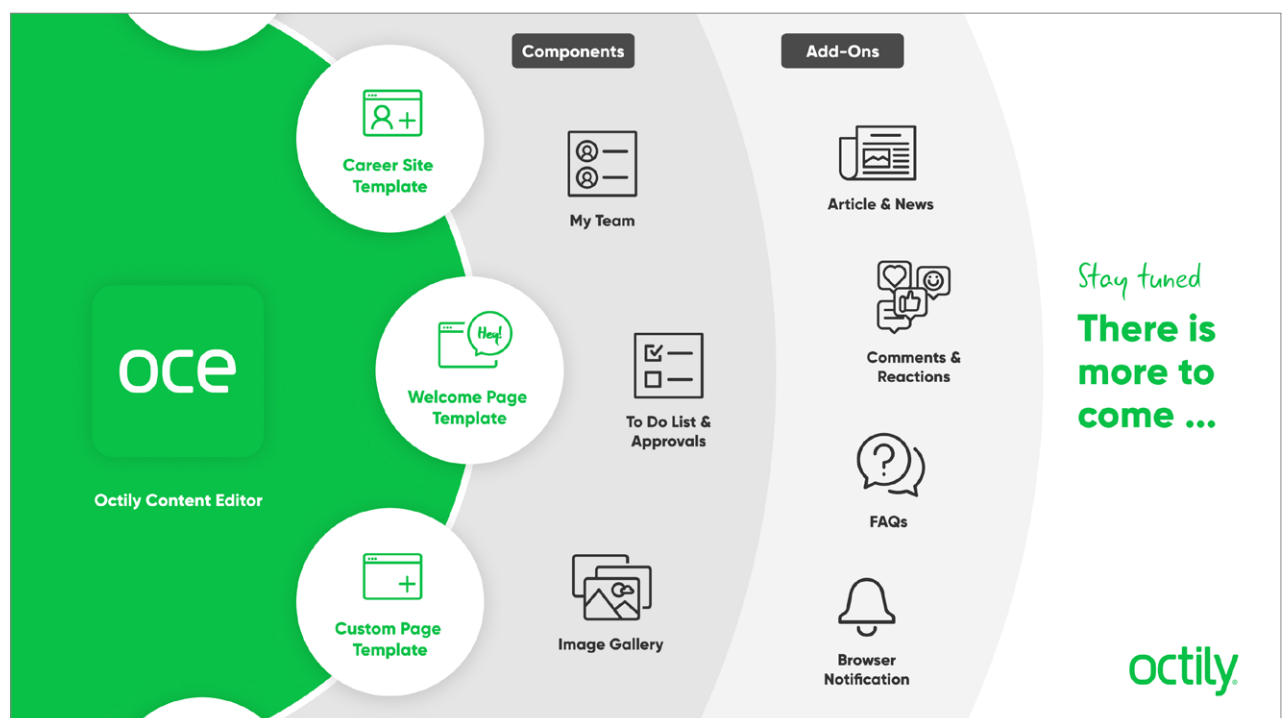

With the OCE, HR and L&D teams like yours gain full control to manage pages, amplify communication, and deliver an outstanding employee experience – all while keeping everything beautifully on-brand and effortless to maintain.

Originally born from a simple idea – giving our clients the speed and independence to handle most updates themselves without project management bottlenecks – the OCE has evolved into so much more. Today, it's a powerful platform in its own right, continuously

expanding with new features that support your and our biggest goal: driving employee adoption, engagement, and experience.

Whether you're updating your Career Site, Welcome Page, Onboarding Experience, Learner Home, or Manager Hub, the OCE puts you in the driver's seat, making it easy to keep your Cornerstone experience fresh, dynamic, and aligned with your culture.

The OCE seamlessly integrates with **Cornerstone OnDemand's CSX, Saba Cloud, and EdCast**, making it the go-to choice for organizations looking for more flexibility and control – with best-practice templates, reusable components, and handy add-ons to make your customizations even better.

Why OCE?

OCE isn't just an editor. It's your **content powerhouse** for Cornerstone. Whether you need to build custom pages, set up templates, or expand functionality with add-ons, OCE makes it simple.

No Coding Skills Required
Update and manage content with a user-friendly interface.

Always On-Brand
Keep consistency across pages with defined styling and branding controls.

Flexible & Scalable
Start small, expand with add-ons, and grow as your organization does.

Multi-Language Ready
Ensure a seamless experience for global teams.

Secure & Controlled
Assign roles, set permissions, and manage access easily.

Where Can You Use OCE?

OCE is designed to work across different areas of Cornerstone, ensuring a **seamless content experience:**
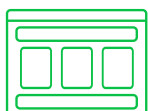

Custom Pages
Build and manage standalone pages tailored to your needs.

Template Setups
Create structured, reusable templates to maintain consistency.

Existing Custom Projects
Seamlessly integrate OCE into your current Cornerstone environment.

Available Templates

Welcome Page Template
Attract top talent with a professional, easy-to-manage career site.

Enhance OCE with Add-Ons

Take your content management to the next level with these powerful add-ons:

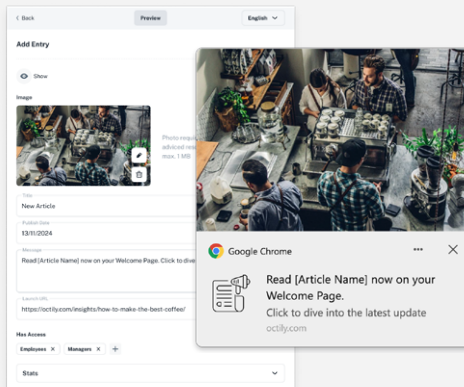

Article & News
Share updates, insights, and news with built-in reactions and comments.

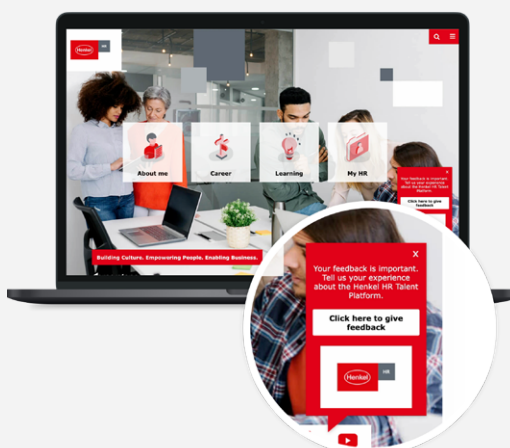

Browser Notifications
Keep employees informed with real-time alerts inside and outside Cornerstone.

Forms
Collect data, feedback, and responses directly within OCE-powered pages.

What's Included

With every new OCE implementation, you get:

Full Setup & Integration
We take care of the initial setup inside your Cornerstone environment when starting a new project.

User Training & Support
A dedicated onboarding session to help your team hit the ground running.

Ongoing Updates
Regular feature updates to keep OCE growing with your needs.

Already have a custom Cornerstone page or project?

OCE can be added to your existing setup too. Just reach out to explore how it can be integrated.
